

PROFESSIONAL. PRECISE. PREPARED

**Our Business
Profile**

About Us

We are: Architects, Engineers, Project & Facility Managers.

Since its establishment in 2007, Diamond Consultant Group (DCG) is a multidisciplinary practice that provides a range of services to the design and construction industry.

DCG's aim is to guide clients through the process of building - from inception to completion - and we have provided professional services in a variety of different sectors including; religious, academic, government, residential, hospitality and healthcare.

Key Personnel

Sean A. Farrington

Our Team Leader

Sean Farrington,
Registered Architect

The President and Principal of the DCG is a 1988 graduate of Tuskegee University with both a Bachelor of Arts in Architecture and a Bachelor Degree in Architecture. Mr. Farrington has been a Professional Registered Architect in the Commonwealth of the Bahamas since 1995.

He has 32 years of post-graduate design and planning experience that ranges from land use planning at the Ministry of Housing and Ministry of Works to his 10-year tenure at Kerzner International where he functioned as a Special Project Manager with oversight for construction quality and final client acceptance for The Royal Towers, Cove and Reef Tower representing in excess of 2300 rooms. Our President and Principal adds an incomparable wealth of technical knowledge to any design team.

Mr. Sean A. Farrington served as the Director of Engineering for both Harborside Resort and The One & Only Ocean Club, Paradise Island, Bahamas, and his unique perspective sharpened by his participation both as a designer and as a resort operator is invaluable and exceptional.

Some of his other affiliations and memberships include, but are not limited to:-

2004

Certified Engineering Operations Executive (CEOE);
American Hotel & Lodging Association (2004-2014)

2005

Member of Hotel Motel Engineer Association

2006

Professional Member of International Facility Management Association

2016

International Associate AIA
